

Come and see how Fulflood saves energy (and money)

Fulflood Open GreenHouse, Sunday 10 October 2010

10/10/10

Following the success of our Open GreenHouse Weekend last February, we offer this second chance to see how households in Fulflood save energy (and money), before the winter sets in. Why not check out ways of cutting your energy bills and staying warm. **Yellow/green letters** refer to the houses listed on the reverse. On show will be:

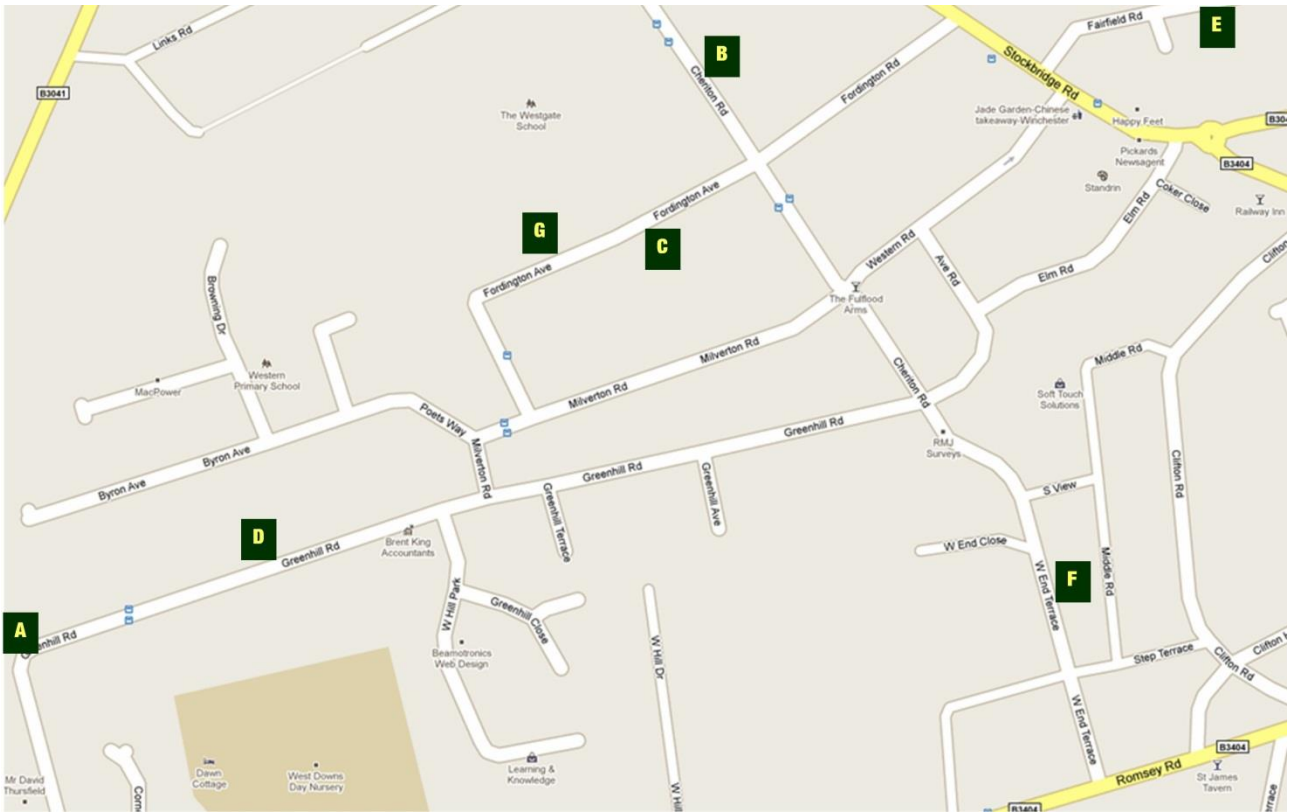

- | | | | | | |
|----------|--|---------------|-----------|--------------------------|---------------|
| 1 | effective LED lighting | CE | 8 | other double glazing | ABCDEG |
| 2 | draught stripping | BCDEF | 9 | secondary glazing | EF |
| 3 | cavity wall insulation | ABCEG | 10 | green roof | D |
| 4 | internal stud wall insulation | G | 11 | solar hot-water panels | BG |
| 5 | roof insulation | BCDEFG | 12 | wood-burning stoves | ABCFG |
| 6 | underfloor insulation | CDEFG | 13 | electricity use monitors | CE |
| 7 | traditional sash window double glazing | E | 14 | eco standby switches | BEF |

You will be able to:

- look closely at the installations at each address
- discuss the practicalities of installing them
- consider the benefits, both in terms of reduced bills and improved facilities, and
- let us know how you are getting on and share your useful hints and tips.

Just call in from **1:30pm to 4:30pm on Sunday 10 October**.

See map and addresses on the reverse:

Yellow/red numbers refer to the features on display listed on the front.

- A Greenhill Road 3 8 12**
+ thermostatic radiator valves (TRVs), kitchen/garden composting, compact fluorescent (CFL) lighting.
- B Cheriton Road 2 3 5 8 11 12 14**
+ a condensing boiler, thermostatic radiator valves (TRVs), compact fluorescent (CFL) lighting.
- C Fordington Avenue 1 2 3 5 6 8 12 13**
+ a condensing boiler, thermostatic radiator valves (TRVs), water butts, grey water system, WC cistern hippos, dual flush toilets, kitchen/garden composting, compact fluorescent (CFL) lighting.
- D Greenhill Road 2 5 6 8 10**
+ a condensing boiler, thermostatic radiator valves (TRVs), dual flush toilets, compact fluorescent (CFL) lighting.
- E Fairfield Road 1 2 3 5 6 7 8 9 13 14**
+ a condensing boiler, thermostatic radiator valves (TRVs), water butts, dual flush toilets, kitchen/garden composting, double cat door, compact fluorescent (CFL) lighting.
- F West End Terrace 2 5 6 9 12 14**
+ condensing boiler, thermostatic radiator valves (TRVs), kitchen/garden composting, compact fluorescent (CFL) lighting.
- G Fordington Avenue 3 4 5 6 8 11 12**
+ condensing boiler, thermostatic radiator valves (TRVs) water butts, dual flush toilets, WC cistern hippos, kitchen/garden composting, compact fluorescent (CFL) lighting, energy efficient front door.

See www.greeningfulflood.org.uk for more information about us and for full details of what is on show.
